

Understanding Exams - Page 1

Exams are structured assessments used to evaluate knowledge, skills, and understanding.

Types of Exams:

1. Objective Exams (MCQs, True/False)
2. Subjective Exams (Long answers, essays)

Example 1: MCQ test with 100 questions in 60 minutes.

Example 2: University exam with 5 long questions.

Preparation Strategy - Page 2

1. Break syllabus into manageable parts.

2. Use active recall and practice.

3. Revise regularly instead of cramming.

Example 1: Study 2 chapters per day and revise at night.

Example 2: Solve 20 practice questions daily.

Exam Day Strategy - Page 3

1. Read all questions carefully before answering.
2. Manage time effectively.
3. Attempt easy questions first.

Example 1: Allocate 30 minutes per section.

Example 2: Skip difficult questions and return later.
